WHY COLOMBIA?

PACIFIC ALLIANCE

- Standards very similar to EU
- Open Economic politics for Exports
- Low or no tariffs for export
- Geographical centrality, the only country that overlooks the Pacific and Carbic / Atlantic oceans
- Big internal market with more than 50 millions inhabitants
- Qualified Manpower and good labour cost
- Very good macroeconomic indicators with controlled inflation
- Own currency with a tendency to devalue that benefits exports
- Huge legal certainty on property and currency movements
- Moderate and stable governments with continuous and orthodox macroeconomic guidelines
- Language and Culture
- Availability of operational Free Zones with already built Warehouses for immediate start of the activity.
